

# GCON4 | iConnect

## OVERVIEW

## WHAT IS GCON4 ICONNECT?

GCON4 iConnect is the ultimate Software-as-a-Service (SaaS) solution in the cloud that allows migrating and updating large data volume to Unit4 ERPx easily, rapidly and safely.

# FEATURES

## RAPID DATA MIGRATION PROCESS

Significantly reducing the time to migrate huge volume of data by up to 50%. Online security and privacy of your data migration is assured.

## EFFICIENT DATA MANAGEMENT OF UNIT4 ERPX

Bulk update and validate masterfiles and transactional data, as well as associated relations, flexi-fields and document archives with a single click.

Sequenced Queue- based activity

Fields identification by: Mandatory, Optional or Mandatory/Optional.

Ability to download existing ERPx information into a Excel sheet based on Information Browser.

Validated attribute values – Incorrect values are highlighted on the excel sheet before updating Unit4 ERPx

Transactional Data – Ability to migrate and update transactional data (GL, AR, AP).

History Logs – Ability to view history logs from all previous uploads.

# BENEFITS

## Reduce time and cost

Simplified process of migrating and managing data within Unit4 ERPx without having the need to allocate more human resources and time.

## On Cloud

iConnect can be accessed anytime anywhere with internet connection.

## No software installation

You can work on any computer, as long as you are connected to the internet. True portability!

## No software updating

You are always using the most updated software version online.
