BENEFITS

Integration

The tax localization module is integrated with the entire finance module, so any transaction entered into the system will be reflected in the different reports.

Finance Control

In all organizations, it is necessary to have updated and timely control of finances at different levels such as cost centers or projects. The localization reports are hence designed so that users can perform such monitoring and make more accurate decisions.

Tax Compliance

Ability to generate the main tax reports to comply with the requirements of the law.

Flexibility

The tax localization is designed so that in the event of any tax change, reports or processes can be adapted without the need to restructure the entire module.

FEATURES
