Business Analyst

Challenges

- Regular and frequent manual uploads and amendments to data across 15 clients individually, some items not catered for under BIF.

How did GCON4 MFL help?

- Able to update 15 clients much more easily and faster than via manual updates.
- It is a wider application compared to BIF.

“The contacts and support at GCON4 have from day one been very helpful, flexible and customer focused. The tool itself has probably preserved my sanity, allowing me to avoid regularly having to manually update 15 separate Unit4 clients. The value of that in terms of saved time and resources easily justifies and outweighs the cost of the tool.”
