David Ramirez  
Gomez, Head  
Business Applications

## Challenges

- It is difficult to update Unit4 ERP in a rapid manner. The interface is not friendly nor well designed; their APIs do not work properly. GCON4 MFL helps to subsidize those shortcomings.

## How did GCON4 MFL help?

- A lot, we can update our POs and create new ones.
- Allows for a semi automation of PO creation for the new Travel system.

***“GCON4 MFL has become a cornerstone of our travel system. We are able to create and update PO, make amendments, and have an end-to-end flow without manual intervention, thus saving days and days of work for our staff.”***
